The Caterpillar That Learned To Fly: A Children's Nature Picture Book, A Fun Caterpillar And Butterfly Story For Kids, Insect Series (Educational Science (Insect) Series) (Volume 3)

Synopsis

This picture book will delight children between the ages of 5 to 9. It is told in a unique story format from the perspective of Cutter a caterpillar. Children will learn fascinating facts about this caterpillar as the story unfolds. They will also discover the amazing transformation of one caterpillar into a butterfly. Cutter is a caterpillar that eats, grows and sheds his outer skin a number of times. Although he lives a simple life on milkweed leaves, it often is filled with danger. A few weeks later he feels different, and he senses that he needs a very long rest. This time, as he hangs upside-down on the stalk of a milkweed leaf, great changes occur to his body. Cutter transforms into Flutter, a beautiful Monarch butterfly. He wastes no time in exploring a vast new world that he never knew existed. This book will let kids see how wondrous the natural world can be. It will also encourage them to follow Flutter's example and discover what is beyond the world they are familiar with.

Book Information

Series: Educational Science (Insect) Series

Paperback: 32 pages

Publisher: Sharon Clark; 1 edition (December 4, 2015)

Language: English

ISBN-10: 099380036X
