## Customer Reviews

I like this book a lot--it's come in handy during fourth year clinical year rotations in veterinary school. I know I will use it a lot when I get to my first job. This series was highly recommended to me by a practicing vet who says he uses them a lot. I also really like the Clinical Veterinary Adviser, 3rd edition. I use both of them. The Clinical Vet Adviser has a really great, easy to use companion website that I use a lot. However, this Five-Minute Consult, although it claims to have a companion website, the website included in the book doesn't seem to exist. If anyone can help me figure out what's going on, I'd appreciate it.

I absolutely love this book!! I am a registered veterinary technician who is going to vet school and while I already knew a lot about diseases, illnesses, etc. This book goes into great detail!! Gives treatment options, prognosis, pharmacy advice for prescriptions, what breeds it typically happens in, and so much more. Well worth the money and would make a perfect gift for anyone in the veterinary medicine field!

excellent book to have in your veterinary practice

This is a must have for any library!

Great information!

Excellent a bulk of useful information and charts. Only issue I had was it should have a more detailed index rather than A-Z lookup system.

Excelent

I have always loved how easy it is to use this book
