This book answers many questions about Goldendoodles. What are goldendoodles? Do they make good family dogs? Who do you get a goldendoodle from? How do you choose a puppy? How do you train and raise a puppy? What do you feed your new puppy? Are Goldendoodles good family dogs? It answers questions about health, introducing your new goldendoodle puppy to other pets in the home, leash training, should you get two puppies? Should you get a boy or girl puppy? How do you groom a goldendoodle? And what kind of coats do they have? Do Goldendoodles shed? It even

guides you through the elderly stages of your Goldendoodle's life. I raise Goldendoodles and I think goldendoodle owners will be using this as a guide throughout their goldendoodle's life. Probably one of the best books on Goldendoodles that has been published. It would even be ideal for someone who is researching the goldendoodle and is considering adding a goldendoodle to their family. I will be providing this book to all the families acquiring a goldendoodle puppy from me. I appreciate being asked to give any advice I had on the accuracy of the information in this book as well as any input and pictures to be included (without compensation) before it was published. This book wonderfully covers the whole world of the very popular dogs, Goldendoodles (Golden Retrievers x Poodle). It covers not just the basics of the breed, but also reviews various generations and specific care to the breed (such as coat care). There are tips for training and a "what to look for" while puppy shopping. There are several books out there on the market about Goldendoodles, but this one has contributions from several Goldendoodle breeders. It is well organized and the writing is concise, yet detailed enough to give you a full taste of what you're looking at when you get a Goldendoodle. For 'already owners' of Goldendoodles, and newbies that are shopping...this book covers all the bases.

This book will be your go to for all questions related to Goldendoodles. It will assist you in your search for the right breeder all the way through caring for your dog in his/her senior years. It is chalked full of information directly from the expert breeders of Goldendoodles. There are a lot of "Goldendoodle" books, but if you must buy just one, this is it!

This training book gives a new puppy owner the information needed to get started training and loving their new Goldendoodle the right way. Having an expert handbook available is very important when owning a puppy/dog and this is the book for you.

So sweet. I am so happy that I purchased this book. I anticipate my little Gina to come home in March. I took copious notes as items I would need. More importantly, great ideas such as what to do on the day the puppy comes home and best type of chew toys, health, nutrition, safety tips, grooming and even exercise is discussed by professionals in this compact text. I love it.

This book has been a long time in coming. Everything you want or need to know about

Goldendoodles. Everything I'm asked as a breeder is addressed. If you are considering adding a goldendoodle to your family or already have one or two this is a book you should have. Alan Kenworthy went right to the source. He asked many of the top breeders in the country to contribute to this book. Two interviews included in this book from Amy Lane and April Cliber are very informative. If its in this book, it has been approved by top breeders. Thank you Alan. I'll be buying this book for my new goldendoodle families.

I have been wanting a Goldendoodle for over a year and my boyfriend and I finally decided to get one. I read everything I possibly could online but, wanted more. This was a quick and easy read that definitely gave me better insight on the breed. Great book ...highly recommend it for new dog owners.

This book is an easy read! It gives a nice overview of Doodles and helpful tips for new dog owners. I have never had a puppy so I had a lot to learn about puppies in general and about doodles. This book covered both topics. I'd say this is a must-have book for every new Doodle owner!
