Customer Reviews

This ebook/Kindle didn't tell me anything I didn't already know. I was trying to find out how to download a FTP file with all the online store's drop shipping products to a website. It's 3.4 G's. I don't plan to do the products one at a time. Information on that that would have made this ebook/Kindle worth 5 stars. If you don't know the basics, this will help. If you already know the

basics, don't waste your money.

I love the easy to follow style and examplesThe book cost was low and low entry to market.I which it had information to advertise in other markets

Easy to read. Step by step plan that is easy to follow and star making extra money with an online business or service.
