How To Love

Synopsis

For fans of Sarah Dessen and John Green, this is a breathtaking debut about a couple who fall in love...twice. Before: Reena Montero has loved Sawyer LeGrande for as long as she can remember. But he's never noticed that Reena even exists...until one day, impossibly, he does. Reena and Sawyer fall in messy, complicated love. Then Sawyer disappears without a word, leaving a devastated and pregnant Reena behind. After: Almost three years have passed, and there's a new love in Reena's life: her daughter. Reena's gotten used to life without Sawyer, but just as suddenly as he disappeared, he turns up again. Reena wants nothing to do with him, though she'd be lying if she said his being back wasn't stirring something in her. After everything that's happened, can Reena really let herself love Sawyer LeGrande again?

Customer Reviews

How to Love could have easily been a 4--or maybe even 5--star book, but there was one massive problem: Sawyer. Sawyer literally stole those stars one by one. POOF! GONE! He just chipped away at them every time he pulled a jerk move that made me want to pummel his face in with rocks. How to Love started out pretty strong for me. I had kind of a morbid interest in it, very similar to My Life After Now by Jessica Verdi. Teenage pregnancy? I was curious. I wanted all the details; I wanted to know exactly how/when/why it happened. But FYI, they never actually tell us how she got pregnant. NEVER. That's what I wanted to know. We don't know when it happened, or if they used a condom or not. All we know is that she woke up with morning sickness one day. At first, I could

really relate to Reena. She was the girl who loved quiet summers playing card games and hanging out with her best friend. But all around her, people were "moving on". She lost her best friend to the drinking and partying scene. I could totally relate. Reena just wanted things to be the way they always were; she didn't want things to change. She wasn't interested in partying or any of that."I wasn't shy, exactly. That's never what it was. I just didn't know how to do this, is all, the clang and chatter of high school.""I had no friends in tenth grade. Okay, that's dramatic. I had friends. I didn't eat lunch alone on a toilet seat or anything. Mostly, I just didn't eat lunch. I went to the library."THAT WAS ME!!! I could totally relate. But everything went to the dogs as soon as Sawyer stepped on the scene...I feel like we were supposed to love Sawyer despite his faults.

I picked *How to Love* up off my stack last night after finding my mind wandering listlessly away from the book I was trying to read. The writing kept losing me, the characters insisting on overstating everything and questioning themselves ridiculously. I was lost. So I grabbed Katie Cotugno's debut novel and flipped to the opening page. Now this is writing, I thought almost immediately. I'd read almost universally positive reviews of this one, and I had high hopes for a contemporary with meat on its bones and characters I could see and hear and care for. From the first page, Reena's gasping, tight narrative sucked me in. And I settled in happily for a late night. Reena Montero always planned on seeing the world. She planned to be a travel writer and share her experiences with other worldwide vagabonds. She even got accepted early into Northwestern's writing program and was all set to kick the dust of her hometown behind. Except she didn't. Instead, she got pregnant. The baby's father, her sometime boyfriend and all-time crush, left town before she could tell him. And she's spent the last couple of years becoming a mother, raising her baby girl Hannah, working at her father's restaurant, and taking community college night classes. She doesn't even recognize her life anymore. And then Sawyer comes back to town. They cross paths in the local 7-Eleven, and he acts like everything's fine. Like he didn't disappear without a trace, leaving her heart in smithereens and her baby without a father. But there's so much water under the bridge between Reena and Sawyer at this point, she can hardly summon the will to fight anymore. And so Sawyer works his way back into her life once more, just like he's always done.
