I'm wondering if they are in need of an editor...I've found so many grammar mistakes in this book so far.Granted, this is a marketing book, but come on. That's a little unprofessional.Take the time to get it right. Don't just keep pumping out new books all the time, if they aren't even ready. Take pride in

your work.

I purchased this book for my daughter for a college class. It stated the book was like new. We were so over joyed when the book arrived. It was like a brand new book. There were no high lite marks in it and if I didn't know better I would have thought it was a brand new book. The cost of the book was well less than what the book would have cost brand new. My daughter was very happy with the book and I was happy with the price and the condition.

I purchased this textbook for my marketing class. This book was an excellent read and the course objectives for each reading is helpful to understand the chapter. I like how the case studies and examples are applicable to our every day life that it's easy to relate too.

It's a book. It has words. It's fantastic

The principles of Marketing has been a powerful tool in my journey into the marketing profession. I found many ways to apply the concepts to my MBA assignments and growth.

Great book for an introduction to marketing. It is expensive, but it's of high quality and the e-version works great with Kindle.

Still waiting to receive this book, but I was glad to find it at a reasonable price. My son needs it for his college class.

Great way to save money. Rent a book! The process to return was very easy too. I would highly recommend it!
