Million Dollar Year

Synopsis

Million Dollar Year is the story of the final year in the life of Peter Caswell, a fictional character in an all-too-real situation. He has just received the news that his days are numbered. Of course for each of us, our days are numbered - but we don't know the number. Peter does. His number is 365, give or take a few. And he's decided to make the most of them for the future security of his family. This is how he finds himself on a cruise ship with some of the most successful multilevel marketers in the world. While Peter Caswell and his situation are fictional, the MLM Cruise is not. It is a real event, open to all who wish to build relationships and share success secrets with each other. The decision to write the book was to share the experience with those who have never gone and for whatever reason may never go. It's the cruise in audiobook format, as best as we could capture it. The lessons contained within this book can change your outlook, your business, and your life.

Customer Reviews

We all know that this life won't last forever, but most of us do not know exactly how much time we actually have left. What if you were given the opportunity to do something different, would you take it? Million Dollar Year really helped me take a close look at my life and ask; what if I only had a year left? What would I do? This book tells a story of a man named Peter, who finds out that he is fatally ill and only has one year left to live. This shocking news from his doctor requires him to evaluate the time that he has left, and he is forced to make the most important decision of his life. Peter realizes that if he had one final wish granted to him before his time expires, he would want to make sure that his family is left with a sustainable and growing income stream so that they will be happy and

comfortable after he is gone. This was a wonderful story and not only was it a pleasure to read, but the biggest and best part of this whole book is the treasure trove of marketing tips, money making and self improvement secrets, and breakthrough concepts that are revealed. This book simply radiates success and uses the powerful art of storytelling to capture the reader's attention while also enlightening them with essential marketing techniques and mindsets. Richard and Andrea inspire the reader to experience the best of both worlds; they not only take you on a tropical vacation but they also leave a trail of explosive success secrets that made me have a new moment of inspiration and motivation on just about every page. When I was done reading this book I had the personal realization that I really don't need to only have a year to live to apply the concepts in this book, and then I got really excited when I thought where I could be if I lived this next year like it is my last. I had never even heard of the MLM cruise until I read this book, but now I can't wait to go! Read this book and you will know what I mean!

Richard Fenton and Andrea Waltz once again have produced a book that inspires one to immediate action. The only difference between who you are today and who you will become in the next year, five years and your lifetime will be the people you meet and the books you read. Be sure to put this quick and powerful read in your queue at the top of the list. You'll be inspired, motivated and ready to take your life and business to the next level now!

I was in a bit of a slump in my direct sales business, so the title of this book appealed to me. I had also heard Andrea Waltz on a teleconference training call and was very impressed with her, so decided to purchase this book. It's a quick read. I read it in a couple of hours. But the content is excellent! The main character in this story could have been me, except for the one year to live part! This book got me motivated and inspired to take action to achieve the next promotion in my company by year's end. I would definitely recommend this book and am planning to give it to my downline team members.

My title says this book is life changing if you're ready or not. Well I was "ready". I was practically starving for "ready", in a manner of speaking. The other part of the title that says, "...or not!!!" means that I know this book is great for someone that's not as ready for it as I was. I know this because I asked my wife to read it and it opened up her eyes in many ways. Two ways in particular. The first was her perception of multi-level marketing which by the way she was NOT a fan of, her perception changed and she finally started seeing it as a profession which it is. It's not an industry or a hobby

unless you treat it that way. The second change and I believe the more important change was how she could change her overall life and how easily she change live it better. On the surface this book may seem like a book about business but when you look only slightly deeper it's about being you and allowing yourself to get out of your own way and let what is already inside shine out of you. It gives some very practical idea's to help facilitate your personal growth in your life. So in the end is it about business, relationships, making money, personal growth, fear, love, happiness? The answer is No and Yes...it's about LIFE in caps! That's at least my take on it...told you I was ready. SIDE NOTE: If you're involved in multi-level marketing this book is a must read and should be on your top five book list. If you're not involved in multi-level marketing you should still read this book and it should be at least in your top ten books to read. The book is a fast read. I read straight through without putting it down. I'm going back to it soon to make notes and pull more out of it. FANTASTIC BOOK!!!

I read this after reading Go for No by the same authors. This is a good general motivation book targeted towards MLM people. I am not involved in MLM so was not overly applicable to me. I really enjoyed the author's other book Go for No and highly recommend that for anyone in any business!!!

What I like the most of this book is how it presents the basic knowledge and principles of Network Marketing in a language everyone can understand and apply. I certainly recommend it to those just starting this profession or those who, like me, have been here for a while without any result. One of these days is NOW!
