ISBN-10: 0071825347

ISBN-13: 978-0071825344

Product Dimensions: 2 x 10 x 12 inches

Shipping Weight: 3.8 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 starsÂ See all reviewsÂ (14 customer reviews)

Best Sellers Rank: #60,489 in Books (See Top 100 in Books) #13 inÂ Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Biochemistry #59 inÂ Books > Engineering & Transportation > Engineering > Bioengineering > Biochemistry #372 inÂ Books > Science & Math > Chemistry

Customer Reviews

For the medical field, it's coverage of medically-related biochemistry is not nearly thorough enough, although this is not necessarily its intended audience. Lippincott's Illustrated Review of Biochemistry is much better suited and adequate for this purpose. Covers a few extra topics, such as methods that traditional texts do not, but is not in depth enough regarding others to serve as a reference text to me.

Well- written and concise. Good Illustrations. Needs some study questions. It would be nice to have power point figures as well.

This is a major reference book in our biochem class.

Much improved and updated over prior the 26th edition we were using.

Just what I needed for school. Greys condition

Used 46 years ago in med school- still the best when I need to teach basics to young doctors.

nice textbook

as described
