Very helpful book. Has a lot of insightful stories on other cultures! Shipped very quickly and as described!

Although this textbook was the most expensive one I needed for this semester, it has a high school grade reading level. Most of the articles are actually pretty interesting.

I enjoyed the articles in this book. I rented the book but after reading so many different articles, I am going to purchase the book!

It's dry as all heck, but what do you expect from a book like this? Excitement and adventure? More like walls of text. But in all seriousness, came in great condition and fast.

It's printed on a rough plastic case, while the print is smooth and pretty, the plastic is rough and unpleasant. Not worth the cost whatsoever. Go on eBay, look up a marble case, and get a cheapie from China, save some money cause this is not worth \$12 to scratch my fingers/palm and be so rough. I actually seen a case similar to mine for \$2 free shipping and it didn't have the ugly sides so I'm annoyed.
