Lacks chapter 31 despite claiming it is identical to the US version.

This book arrived in excellent condition!! I was really surprised about how cheap I was able to rent such a new-looking book! Highly recommend.

I got a used copy for half of what my college was asking. It looks like new! Very satisfied with my purchase!

The price was perfect for my budget and it arrived as expected. Very pleased.

Very basic. Was expecting something much higher level for the price.

Rented this book for school and it was the perfect price!

Text book is decent. Class is very difficult! Good luck.

Great book. I'll be holding on to this one.
