Ebersole & Hess' Toward Healthy Aging: Human Needs And Nursing Response, 9e

Synopsis

Get all the knowledge you need to provide effective care for adults as they age. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, Ebersole & Hessâ™ Toward Healthy Aging, 9th Edition is the only comprehensive text to address all aspects of gerontological nursing care. The new ninth edition has been extensively revised and updated and now includes shorter, more streamlined chapters and pedagogical features to facilitate learning, covering the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. This new edition considers the experience of aging as a universal experience and the nurseâ™s role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus the readersâ™ attention on applying research and thinking critically in providing care to aging adults across the care continuum. Learning objectives found at the beginning of every chapter help students identify the primary take away messages they should learn from the chapter. I think the Key Concepts identify the primary take away messages/important contentSafety Alert boxes emphasize important safety tips for students to consider while working in a clinical setting. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice guidelines for management and promotion of wellness for older adults with chronic illness and those at the end of lifeKey concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing studies with critical thinking questions and activities assist students in assessment, interventions, and outcomes to promote healthy aging. Research questions at the end of each chapter stimulate thinking about ideas for nursing research. Information addressing and illustrating potential ethical issues that nurses encounter when dealing with this specific population of adults. The most current information on nutritional needs of the older adult is covered in a separate chapter. Research Highlights boxes identify important research studies in the field of gerontology to give students information about the latest findings in the field. The latest scales and guidelines for use when conducting health assessments within the unique context of working with an older adult and potentially his or her significant others. Careful attention to age, cultural, and gender differences are addressed throughout the text along with a chapter dedicated to culture and aging help the nurse understand these important considerations in caring for older adults in a way that fosters health equity across the globe. Healthy People boxes reference the goals cited in Healthy People 2020. Content consistent with the core competencies for geriatric nursing incorporates the

Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. Customer Reviews

It is more interesting to read than some other textbooks but, for that very reason, it is so time consuming to read. It is just packed with great information! The pictures always make me smile!

Excellent quality, received it quickly and in wonderful condition. Fulfilled my course textbook requirement.

Required book for class, it was a pretty good read.

thorough book, have only read very little though.
