Introductory Econometrics: A Modern Approach (Upper Level Economics Titles)

Synopsis

Discover how empirical researchers today actually consider and apply econometric methods with the practical approach in Wooldridge's **INTRODUCTORY ECONOMETRICS: A MODERN APPROACH**, 6E. Unlike traditional texts, this book uniquely demonstrates how econometrics has moved beyond a set of abstract tools to become genuinely useful for answering questions in business, policy evaluation, and forecasting. **INTRODUCTORY ECONOMETRICS** is organized around the type of data being analyzed with a systematic approach that only introduces assumptions as they are needed. This makes the material easier to understand and, ultimately, leads to better econometric practices. Packed with relevant applications, the text incorporates more than 100 intriguing data sets, available in six formats. Updates introduce the latest emerging developments in the field. Gain a full understanding of the impact of econometrics in practice today with the insights and applications found only in **INTRODUCTORY ECONOMETRICS: A MODERN APPROACH**, 6E.

Average Customer Review: 2.7 out of 5 stars [See all reviews](#) (3 customer reviews)

Best Sellers Rank: #25,221 in Books (See Top 100 in Books) #12 in [Books > Business & Money > Economics > Econometrics](#) #167 in [Books > Textbooks > Business & Finance > Economics](#) #7718 in [Books > Reference](#)

Customer Reviews

This book is a must-have for anyone doing research using applied econometrics. I've had older editions for years, and I refer to this book regularly for my research in health economics and health care policy. I bought the new edition, because I read there were new datasets added. I'm hoping to try some out in my teaching for next fall. I post an update on that.

Too wordy. It could be very tiring simply to read the context, let alone trying to understand the econometric concepts. The same information could be conveyed in a much more precise and comprehensive fashion.

Extremely wordy. This book takes an already challenging subject and makes it even harder to comprehend. The readability of this book was awful.
