My son in law is really into Pathfinders. I bought this for him on a whim. I was afraid he would think it was lame, but he said no, it was great, and he was glad I got it for him because it would be somehow taboo to buy it for himself...? Anyway, he liked it! good enough for me.

Much like the other Pathfinder Toolbox's, this is a thin manual, but it's packed with some good stuff. There are a variety of poisons, feats, some alternative class features, a slew of feats, a handful of weapons, and some expansion on the dirty fighting rules. If you're playing a rogue or other shady type in the Hell's Rebels campaign, this is very useful. Mileage may vary in other campaigns depending on gm and playstyle.

Just what I expected from a book of its title. Learned how to use these alternative traits in games with peers and I've become even more effective than I'd already been. I play as a Rogue or Ninja

very often, so this was useful to me particularly. I recommend this to anyone who wants to add a bit of "dirty flare" to their arsenal.

Great

Excellent!!
