Customer Reviews

There is a lot of information out there on life coaching, and as a business owner and now a full-time Life Coach, the best decision I made regarding my career was to utilize Mitch and David's methods. I spent a year researching trainers and techniques and found Mitch and David's concepts to be the best. They cover the what and why of being a life coach, and importantly for me, they give you the practical steps that will help you turn it into a reality. Not only is their material great, Mitch and David are genuine. They more than delivered what they promised. Thanks to their teaching, I have successfully transitioned from a business that I was good at but didn't fulfill me to one that I spent years dreaming about and absolutely love. So if I can save you some time, these guys are the real deal and their book will motivate and give you the answers you need.

Here's what's awesome about this book. It's not filled with theory and hype. It's practical and you can take what you've read and apply it immediately. The stories are insightful, the activities are based on real life and already tested and the ideas will fire you up. And if you're on the fence about whether or not this is the right career shift for you or just getting started-- the questions and exploration should help clarify things for you. I'd highly recommend this book if it costs \$19.99 but for 99 cents -- it's a steal!

I'm biased. I'll say it up front. I trained through Mitch and David and continue to learn through the Mastermind group, podcasts and ongoing web posts. I love that Mitch and David created a book that encapsulated the Elite Life Coach training process. Beyond the contents of the book itself there is more to learn from their online tools and videos. Thanks for openly sharing tips and tricks, personal experiences with coaching real clients to achieve real goals (Dreams), and your willingness "out ourselves" about what worked well (and what didn't) as you were learning and

growing your practices.

This book drives home whether or not life coaching as a career, is for you. They are clear, concise, and knowledgeable about what life coaching entails and what kind of person it takes to thrive in this business. After years of searching and wearing many "hats" I have finally found my life's purpose and am happy to say that after doing my homework I will also be pursuing training from them. They do not overload with needless information but keep their powerful, useful tools and guidance straightforward.

This was a birthday gift for my brother-in-law's 70th birthday which we celebrated in style last week-end. He is a dynamo who still works full-time as the IT guru he's been throughout his career. He is, however, planning to retire in a few years and is exploring becoming a life coach for the next phase of his life. He said this book was a great gift and he's excited about reading it. I am glad I found this book as he begins his research for a big life change.

Mitch and David offer the most practical set of questions and perspective I've found when considering whether or not to become a life coach. Truly, there's nothing out there that is as helpful or immediately useful. They clearly explain what coaching is (and isn't) and ask the reader to explore if this line of work is really what they want instead of presenting a pie-in-the-sky celebration of their chosen occupation and certification program (that book would be titled, *Justifying Our Profession*). Many people begin pursuing a career with only a superficial understanding of what the work entails or their reasons for choosing that field. By the time you finish reading *Become a Life Coach*, you'll know whether or not you want to... and why!

Honestly, coaching is hard work! I've been "half" coaching, and I needed to get really clear in becoming a coach full time. Mitch is so straight forward with what it takes, and really encourages you to get real by not just asking vitally important questions, but inviting you to journal them. The book is also crystal clear that certification is not required while offering the opportunity to train with them. It is an honest no BS look at what coaching is and the kind of work you need to put into it.

All of Mitch and David's Life Coach Training materials are excellent! They absolutely know what they are doing, and this book is no different. It's a fast and easy read, and absolutely worth the time and money. Definitely highly recommended!
