The Successful Interview: 2nd Ed. Why Should We Hire You? (Interview Questions)

Synopsis

Second Edition Just Released! September, 2016 Are You Worried About an Upcoming Interview? Keep Reading to Learn How to Ace Your Next One... Facing potential employers and undergoing question after question can be a daunting task. You sit there nervously wondering if you are answering everything correctly or if they even like you. Many people go to interview after interview focusing on all the wrong things with no one to tell them what exactly to do or say. Unfortunately, this can lead to missed job opportunities as well as cause people to give up on the job search all together. The truth of the matter is that if you are having trouble getting hired from an interview it is because you are lacking the right answers and strategies. This book will teach you everything from how to prepare yourself for an interview, to how to answer the toughest interview questions there are. The Successful Interview will give you the confidence necessary to land your next job interview! A Preview of What You Will Learnâœ" The Correct Way to Dress for an Interviewâœ" Exactly What an Interviewer is Looking Forâœ" How to Answer the 25 Most Challenging Interview Questionsâœ" Why You Need to Interview the Interviewerâœ" The Wrong Way to Answer a Questionâœ" Much, much more! Take charge of your job hunt, scroll up and buy this book today!

Customer Reviews

I'll start with a little bit about me. I've always had problems going to job interviews and staying composed. Literally the entire time before the interview I sit there and psych myself out which turns me into a nervous wreck. This ends up making me perform terribly at the interview itself and I end up not getting the job. So I bought this book. This book gave me exactly what I needed to know. It gave me enough foresight to be able to walk into my interview with confidence like I've never had before! It taught me how to flip the interview around so that I had control and could decide the direction the interview was going rather than my prospective employer scrutinizing me like what usually happens. Overall it's a great book and you should buy it today if you are going to an interview soon!

This book will surely go a long way in helping out those looking for a job after graduation and those who would like to transfer to a new one. I find the tips and advice given here effective and certainly worth trying. The book even promised to give a "step by step advice that will help you land that dream job you've always wanted." How cool can this be? So, before one embarks on a mission to land on his dream job, he needs to be equipped. And this book can be a great help.

I found this book absolutely helpful. This provides excellent tips in making every interview a success. There are tons of ways to have confidence during your interview. This book also highlights that in the interview process you can also ask questions and you can take different approaches. After reading this book, I feel much more informed on this topic and I am confident that I will be able to do much better during any interviews I have in the future. If you're looking for a book that is short, effective and makes sense, you have to read this book, this will definitely help.

This book is definitely the ultimate guide for all of those who want to pass the job interview of their desired profession. And as someone who is in need of a reliable advice when it comes to job interviews, this one has certainly given me ease and encouragement. I love how the content is so informative and clearly explained. This totally provides the necessary information which a job seeker is ought to know and acquire. Reading this book is indeed not a waste of my time, and I'm very thankful for that.

I was looking for a sound blueprint outline all the steps to ensure I'm an all-rounder walking into the interview. The book only presents very clear directions, explanations, and examples. I saw it as a magician revealing the secrets of the craft. I honestly attribute the book to helping me land my new job as it formed the foundation for my interview preparation work. I learned to prepare and how to stay relaxed during the interview, and also was guided on how to perfect my resume.

This is an excellent book. It gives you step by step instructions that are easy to follow. After reading this book and implementing the things suggested, I became victorious and landed not only a job but with the company that I have been trying to become employed by for years. Thanks for writing this book.

Steve Williams really knows what he is talking about. You can tell as you are reading the book that he is speaking from personal experience. That's something you can't just make up. While reading the book it feels almost as if he is guiding you through everything step by step rather than just being handed a bunch of information that you have to figure out and sort out by yourself. My favorite part of the book was the chapter on turning the interview around and using your previous employment as leverage. He really made me think about that whole part of interviewing differently. With the knowledge I've gained from this I'm sure I will rock the next interview I go to!

Reading books like this is always a good idea because it helps us prepare for our interview and we will learn a lot of useful tips on how we can finally land our dream job. What I like about this book is the author provides a list of interview questions and how to answer them, this kind of knowledge will come in handy in the near future; kudos to the author for creating a very informative book like this!
