# Kaplan MCAT Biochemistry Review: Book + Online (Kaplan Test Prep)

## Synopsis

More people get into medical school with a Kaplan MCAT course than all major courses combined. Now the same results are available with Kaplan's MCAT Biochemistry Review. This book features thorough subject review, more questions than any competitor, and the highest-yield questions available. The commentary and instruction comes directly from Kaplan MCAT experts and includes targeted focus on the most-tested concepts plus more questions than any other guide. Kaplan's MCAT Biochemistry Review offers:

- **UNPARALLELED MCAT KNOWLEDGE:** The Kaplan MCAT team has spent years studying every document related to the MCAT available. In conjunction with our expert psychometricians, the Kaplan team is able to ensure the accuracy and realism of our practice materials.
- **THOROUGH SUBJECT REVIEW:** Written by top-rated, award-winning Kaplan instructors. All material has been vetted by editors with advanced science degrees and by a medical doctor.
- **EXPANDED CONTENT THROUGHOUT:** While the MCAT has continued to develop, this book has been updated continuously to match the AAMC's guidelines precisely—no more worrying if your prep is comprehensive!
- **MORE PRACTICE THAN THE COMPETITION:** With questions throughout the book and access to one practice test, Kaplan's MCAT Biochemistry Review has more practice than any other MCAT Biochemistry book on the market.
- **ONLINE COMPANION:** Access to online resources to augment content studying, including one practice test. The MCAT is a computer-based test, so practicing in the same format as Test Day is key.
- **TOP-QUALITY IMAGES:** With full-color, 3-D illustrations, charts, graphs and diagrams from the pages of Scientific American, Kaplan's MCAT Biochemistry Review turns even the most intangible, complex science into easy-to-visualize concepts.
- **KAPLAN'S MCAT REPUTATION:** Kaplan gets more people into medical school than all other courses, combined.
- **UTILITY:** Can be used alone or with other companion books in Kaplan's MCAT Review series.

## Customer Reviews

This book is way too detail oriented for effective studying. I would use this for selective reading of topics you need more info on. It is useful in introducing you to relevant terms that might pop up on the test.

A lot of the concept checks don't seem to come from information presented in the book. So I ended up having to use this with Biochem for Dummies. The psych version of this series was very good at explaining the information.

Using this to supplement the Princeton Review Biochem book and its fantastic to couple with it.

Great book

Great book. Includes all you need to know and is complete compared to the others test prep companies.

Book arrived quite fast but the quality was less than expected. There was no dust cover and was slightly creased.
