# OAR Secrets Study Guide: OAR Exam Review For The Officer Aptitude Rating Test

## Synopsis

\*\*\*Includes Practice Test Questions\*\*\* Get the test prep help you need to be successful on the OAR test. The OAR is extremely challenging and thorough test preparation is essential for success. OAR Exam Secrets Study Guide is the ideal prep solution for anyone who wants to pass the OAR Exam. Not only does it provide a comprehensive guide to the OAR Exam as a whole, it also provides practice test questions as well as detailed explanations of each answer. OAR Secrets Study Guide includes: A detailed overview of the Officer Aptitude Rating Test A full study of math skills test An analysis of reading comprehension test A guide to mechanical comprehension test Comprehensive practice questions with detailed answer explanations It's filled with the critical information you'll need in order to do well on the test: the concepts, procedures, principles, and vocabulary that the U.S. Navy, Marine Corps, and Coast Guard expects you to have mastered before sitting for the exam. The Math Skills Test section covers: Numbers and their Classifications Operations Positive and Negative Numbers Factors and Multiples Fractions, Percentages, and Related Concepts Systems of Equations Polynomial Algebra Solving Quadratic Equations Basic Geometry The Reading Comprehension Test section covers: Strategies General Reading Comprehension Skills The Mechanical Comprehension Test section covers: Kinematics Kinetics Work/Energy Machines Momentum/Impulse Fluids Heat Transfer Optics Electricity Magnetism These sections are full of specific and detailed information that will be key to passing the OAR Exam. Concepts and principles aren't simply named or described in passing, but are explained in detail. The guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language. Any test prep guide is only as good as its practice questions and answers, and that's another area where our guide stands out. Our test designers have provided scores of test questions that will prepare you for what to expect on the actual OAR Exam. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear. We've helped thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for our test preparation guides, and our OAR Exam Secrets Study Guide is no exception. It's an excellent investment in your future.

## Customer Reviews

Was super helpful however I just took my OAR exam today and I have to say that a majority of the math section was not included in this study guide. I was told by the processor to study using GRE material which is going to contain similar math information.

I loved the amount of review material in both the math skills and mechanical comprehension. The review material in both sections went into great detail and explained the material in a simple manner. However, I felt that this product could have helped me more if it were to have another set of practice tests for all three sections.

This is so perfect I feel less stress and because this book show a lot of useful great tips and practice exams and it came really quick also .im really happy with my purchase. I received this in a discount for my honest review.

It's a great book, explained everything with too much simplicity, also bring a great examples of every single section. In my opinion, I would love that the book used to bring more math practice exercises, but still a great option to review every single material included in the OAR and ASTB-E tests.

This helped me a lot! Fast shipping!

The book provided some good tips on what to expect for the exam. The practice exams helped prepare for the exam. I would've wanted more in case I need more help. The explanation for the

questions and answers were thorough. Therefore, I was satisfied.

This book goes into a lot more depth than the other study guides I have received. It really helps me understand the information well and I feel prepared for the test.

This reviewer is pretty accurate. I wish they have more practice test and more word problems.
