## Customer Reviews

A book preparing you for a standardized test should not have this many mistakes. Many of the answer keys give the wrong answers, which is scary when people rely on this book to learn. Also,

some of the drills were very simple, which may instill a false sense of confidence in readers.

Answers in the back are so messed up. One of the worst books to practice with... Don't waste your money on it.

I bought this book, as it was recommended by people who have taken the Kaplan nursing entrance exam. It isn't the only book I purchased to study for this exam, but it is definitely the most boring. The layout is for lack of a better word, weird. I'm on page 32, I hope it gets better. By that I mean more interesting, more informative so I'm prepared for my test.

the book has many mistakes in the answers and the practice ACT questions provide information that would do a poor job helping you prepare for the ACT

So far, skimming through the book, the book seems very informative and the visuals are detailed. I like that there are 3 practice tests.

Perfect for those who wants to practice reading and comprehension.

Great review and break down of the tests and subjects

Great price and in new condition
