## Customer Reviews

I got the DVD a while ago and it was very good. Then I saw that a textbook was added and it looks like a helpful tool in addition to the DVD. The text seems easy to follow and the lessons look like they go into more depth too. I am going to get it for my clients who are applying for citizenship.

I have used the DVD and text in my classroom and the students really respond to the material. It has clear well organized lessons and many students have already passed their Citizenship tests using this excellent set.

I recently purchased this set for my parents and they love it. The textbook is very friendly and easy to use. It's full of history lessons, citizenship questions and even grammar! I am so glad I bought this set; it's worth more than the price I paid for it. I highly recommend this product to anyone who is preparing for the citizenship test.

I did put in a request, which was delivered in prompt fashion. It is very helpful to get prepared for the process of gaining citizenship. I would recommend it to anyone needing these items. They are a good deal by the way.

Now with the compact textbook, you can review the highlights of the history and laws you need to know. Attorneys with clients preparing for their citizenship test should encourage them to get the package.

I really liked the girl who interviewed people on the street with question about American history and government. If I had trouble with some questions, I could focus my studies in that area.

Excellent way to study for the U.S. Citizenship test, the DVD and CD are very helpful as well. Well worth the price.

My wife Dianying is studying this material every day after work and hopes to be ready when her appointment comes.
