Customer Reviews

there was no answer key in the back though. i should have bought it from the publisher. its is cheaper and you can log on to the elsevier website and get the answer key. very unhappy!!

So far, the workbook has been helpful. My one complaint is for the space available for writing. There are tiny charts and lines that require a lot more space. Otherwise, no problems.

Great book! Much cheaper than if I would have bought it at my school's bookstore! It was brand new! Not a mark in the book! Definitely a great buy and easy returning options!
