Barron's SAT 1600: Revised For The NEW SAT

Synopsis

Students who are focusing on getting an exceptionally high or even perfect score on the SAT will want to get their hands on this guide. Barron's SAT 1600 is based on the new Spring 2016 SAT test. It takes students beyond standard test prep exercises, reviewing the rigorous coursework that serves as a foundation for the new kinds of questions and presenting novel and effective strategies for tackling the SAT's hardest questions. The book's major features include:

- Extra practice and review in all math topics
- Detailed discussion and examples of the new types of math problems
- Upper-level vocabulary lists to bring students' word power up to college standards
- Comprehensive answer explanations for every question in the book
- A complete SAT test

The book can be purchased alone or with an optional CD-ROM that presents a full-length practice test with answers, explanations, and automatic scoring. Many test takers have told Barron's about their satisfaction with this manual's earlier editions, finding helpful test-taking tips and welcoming the book's special focus on the SAT's most difficult questions. This timely new edition is now better than ever!

Book Information

Series: Barron's Sat 1600

Paperback: 416 pages

Publisher: Barron's Educational Series; 5 Csm edition (December 15, 2015)

Language: English

ISBN-10: 1438006195

ISBN-13: 978-1438006192

Product Dimensions: 8.3 x 0.8 x 10.8 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Average Customer Review: 2.8 out of 5 stars See all reviews (9 customer reviews)

Customer Reviews

Do not buy this book. There are errors in the format and content of the answer key, some explanations of the answers are inadequate ("Choice B works"), and ambiguous questions. I tutor for the SAT, and had previously recommended Barron's to my students. It appears that Barron's

rushed the book to press. Wait for revisions or choose another publisher.

I have tutored Mathematics and SAT Prep (for math only) for years. I found the book an excellent choice for the high achiever (650+) still wanting to improve their mathematics score. I found no errors in the math sections, and I continue to recommend it to a small set of my SAT prep students.

Let me first say that this book is not only for those who have scored a 1400 or higher. Anyone who is willing to study the guide, and can at least obtain a 1200, Barron's SAT 1600 is the perfect book for you. The strategies and tips are lifesavers, and especially important for a fairly new test design. Many books have not adapted so well to the new format, and SAT 1600 is one of the exceptions. Even small but major changes, such as the new way vocabulary is tested, is covered in a specific section at the back of the book. The reading and writing sections are very well organized, and VERY helpful tips are scattered within the chapters to ensure a higher score. Personally, I can already get a fairly high score in the Math section; nevertheless, it is organized so I can easily sharpen my skills on certain topics. The practice test in the back is not perfect. The reading and writing sections were very accurate, but math could have had more 'real life situation' type questions. Just because of some minor discrepancies in one section, I will not take a whole star off. The SAT 1600 book is mainly meant for information, strategies and tips anyways. The best resource for practice tests is the New SAT book by College Board. Overall 4.9/5

Do not waste money on this book. Answer key has errors.
