## Customer Reviews

I am giving this book 5 stars on behalf of the friend I gave it to as a Christmas gift! I know nothing about the subject, however, my friend is very passionate about muscle cars, and she and her husband owned a few of these cars over the years. They were raving about the book and the photos of the cars and even found a couple tidbits of info. that they didn't know. In addition, the book is nicely mad so they are definitely leaving this as their coffee table book.

Awesome book! Great job on the massive amount data collected in this book. Also fantastic work on welding the data on cars, engines, magazine reviews year by year as well by manufacturer. Highly recommend this book!

Great book
