This book is adorable! What I really like about the designs is that each quilt contains a collection of animals in different positions not just one animal in the same position over and over. For instance the deer is in a running position, sitting/laying down and standing. The hedgehog is on its back, front on and then side view- all fabulously cute. The piecing areas are diverse and showcase the applique nicely.

I love this book, and I have chosen about half of the animals to make a baby quilt for my great-granddaughter. They turn out great.

The quilts in this book are just adorable. Instructions are easy to follow and patterns are great.

There are quite a few great choices for baby quilts.

Very cute quilts. My first attempt at appliqué quilting but the clear instructions will be a great help I am sure

This book contains great patterns for appliqued baby and children's quilts. I'll be making several of these.
