Customer Reviews

Fantastic book. I was wary about Marvel re-releasing this old Dark Horse content, but buying this saves you the trouble of hunting down the individual paperbacks. The writing is great. Not perfect, but better than most comics these days. And the art is consistently awesome, regardless of which artist drew which issue. I recommend this to any Star Wars fan who doesn't mind stories that don't include well known characters. And to anyone who likes the previous expanded universe Old Republic era stories.

The old republic series of comic books is probably one of the best written star wars comic books i've ever read! The character development is perfect, the lore is well thought out and it seems like it would make a good film!

Really really enjoyed this one, it's one story the whole way through as opposed to short series or one-shots in some of the other Epic Collections. When volume 2 comes out it's a must buy for me since I didn't read the original Dark Horse published version. Good story with characters I was surprised I came to love so quickly.

Kotor has become my favorite Star Wars comic series thanks to this volume. It's a great volume with lots of content. I love the layout and the paper helps the art to stand out. A must read for any Star Wars fan! Thanks to John Jackson Miller you'll be laughing, crying and all around emotional within these pages. The only down side is that this volume only contains the first 18 issues of Kotor and if you want to read the rest of the series you have to buy the old Dark Horse Omnibus's which are pretty hard to find.

This is a Great Comic series! I love it. Like one reviewer stated, this book collection is a Jedi detective story in which the story takes the reader on a journey of whether the main character is going to clear himself and get through okay or are the forces after him going to succeed. This series takes us back to the city world of Taris introduced in the original KOTOR game. That is where the action begins and our story takes off from. You also get to see the political side of the Jedi and secret societies as the main character is pursued by a secret group of Jedi called the covenant and I won't say any more about them as to not spoil the story. All in all a great collection and I wish that Marvel would put a hustle on getting the other two volumes ready.

The first volume in this series is the best part. It is a Jedi Detective story wherein the main characters are pursued by interesting enemies and get into interesting situations. Conspiracies, plot twists, all of the good stuff.

One of the best Star Wars comics I've read so far. I was so disappointed to realize that volume 2 isn't out. Saying that they're gonna be quite a few saying there are 50+ comics.

G r eat there should be a warning before you buy a book this good. Warning next installment not put

yet side effects include constantly searching for release dates .
