He coached the AE Mind Memory Team to a Gold Medal in the 2014 USA Memory Championship in one of the events! The most requested topic from the teachers, lawyers, real estate agents, and other business professionals that he works with is, "How to Remember Names!"When you GET THIS BOOK TODAY, You will be learning from one of America's Top Memory Coaches to quickly and easily Memorize Anyone's Name using the memory training techniques that top memory athletes use! > There are a lot of books out there that teach you how to improve your memory and even books on memorizing people's names. The thing that makes "How to Remember Names and Faces" stand out is the fact that we have included 565 faces on practice sheets called Name Games to help you become a Master of Names.Spaced Repetition is the Mother of All Skill and there is no better way to practice the art of memorizing names than to have live examples of someone's face to link a name with.In How to Win and Influence People, Dale Carnegie says, "Remember that a person's name is to that person the sweetest and most important sound in any language."The first step in improving your communication skills and people skills, is to be able to build a rapport with the people that you want to talk to. What better way to build rapport than to be able to remember that person's name and call them out by it a month a later.Do you think that they will be more open to communicating with you if they knew that you cared enough about them to take the time and remember their name?In Chapter 12, you will also learn how to use the Art of Visualization to connect deeper with the people that you interact with by remembering the information that you talked about. This will build more trust and strengthen your relationships with others if they know that you actually care about what they have to say by remembering facts from the conversations that you have with them. As you will learn in this book, all of the top memory athletes will tell you that The Key to MEMORIZATION is VISUALIZATION!Your brain learns best

when it can SEE the information that it wants to memorize. When it comes to names, you need to have a picture association for every name if you want to memorize an individual's name very quickly. I will give you my list of names that I have already converted into pictures as a FREE BONUS GIFT! Who is this Book For: Business Professionals: Managers, Realtors, Attorneys, Doctors, Psychologist, Anyone in a leadership role and anyone that wants to see an increase in their sales business by making a memorable impact on your clients. Entertainment: Casting, TV Host, Actors, Directors, etc Education: Professors, Administrators, Principals, Students, etc If you deal with People in Any Capacity, Then THIS BOOK IS FOR YOU!

Customer Reviews

As someone who loves meeting new people all the time, I can honestly say that "How to Remember Names and Faces" is a Game Changer! Luis did an awesome job with this book. There have been plenty of times where I'm mid conversation with someone, and I have to stop to ask them for their name. Well now after going through just the first few chapters, I am

confident that this will never happen again! I'm going to have a lot of fun with this memory technique! I would encourage you to get your hands on it too. It will definitely help you out in your social life.

So glad to have found this book. The writer gives so many tools and tips on memory retention and recall, it's really exactly what I have been needing. Usually good with 2-3 new people's names, what I read last night I used at this morning's meeting with 9 new to me people and I could look at them all during the meeting and call their name immediately, I impressed myself.

My whole life, I've generally had a good memory. But when I find myself straining to recall simple things or short lists - what I need at the store, who my clients are that day, people not to forget to email/call - I find myself saying in my head, "Your '40' is showing". There's no question about it - my mental acuity is dulling. What I LOVE about Luis Angel's coaching methods is that it distills the steps of memorizing names (memorizing anything!), into a few, easy, doable steps. I see many clients every day - some very regularly, some only three or four times a year. Luis Angel's methods are fundamental and consistent. With just a little bit of practice using Luis Angel's techniques, I can create associations that trigger my memory so that I don't have to strain to remember things, lists, people | whatever I wish to retain. It never ceases to amaze me how much clients appreciate that you remember them by name. Having the skills to practice remembering names is an INVALUABLE asset to my job, and makes me so much more efficient on a daily basis. I'm really enjoying developing and keeping my mental edge.

While not the best written book of all time, the strategy is sound and the mastery of it is critical. Remember people's names and your ability to connect and persuade others skyrockets. Maybe you won't love this book (and I am sure there are other adequate or even great reads on this subject), but whatever you do, do... master this strategy.

Luis Angel is like the young Tony Robbins of memory. A hardworking, positive, influential young man that deserves all the success that he's getting. Not only will you learn to memorize whatever it is you want to learn but also gain a friend that will give you the desire to be successful...don't believe me write him and find out.

There has been so much written in the past about remembering names and faces but none has

ever reached the teaching level of this book. This book will guide you through the steps and give you a countless number of exercises that has never been done before. Remembering names is one of the most skills in life and it is also a skill that can be learned. In this book Luis teaches you that skill. Sal Piacente

ONE word to describe this book, AWESOME, it is simple, intuitive, easy to read, and incredible effective. You will learn to remember any person name with no problem at all. Very impressive, most of the other memory books have similar nice claims but are difficult and cumbersome..... a big A grade to Luis Angel.

A great book to help remember names and faces...I'm in sales and Luis's technique is really helpful to be able to recall names and details of conversations and meetings that I was not able to do before. I highly recommend the book for anyone that struggles with this as I did before. You can put these concepts into practice right away. Mike K
