## Customer Reviews

If you are anything like me, I search the shelves at my local book store and find myself empty handed because of the lack of creativity that comes within the newest reading releases. Each DIY book contains the same projects, follows the same format, and at times feels like I'm reading the same text in each book. When branching out to autobiographies, the same exact story of loss and triumph are usually given with the exception of a new face plastered on the cover. Sometimes I feel as though with these categories, content has become unoriginal and the "true self" of people are lost between the lines of text they try to provide their audience for a positive and inspiring reaction. If you've found yourself in this same "reading rut" as I have, then I definitely recommend reading Mr. Kate's newest book release, "A Hot Glue Gun Mess". Kate takes you on a journey through short stories of her life in real events that helped defining who she is in her life today. This amazing, uncensored book gives a sign of relief that unoriginal content has not been lost and you truly feel as though you are talking to your closest, best friend with the stories Kate selflessly tells providing laughter, embarrassment, love, separation, and even those that make you want to blush yourself just hearing about! This new take on an autobiography is very refreshing and unlike any other autobiography I've read in the past. What also separates this release from others is that Kate puts her fashion, interior decorating, and DIY professionalism spin on each short story provided for a fun new project you can try at home yourself.
