Be A PMP Ace In 30 Days: How I Aced The PMP Exam In One Attempt, Without Taking A Break From Work And How You Could Do It Too!

Synopsis

* Updated to include information on the PMP Exam changes incorporated in January 2016 Do you want to earn the #1 Certification in Project Management globally? Are you in possession of numerous resources yet clueless on how you could organise yourself to be fully prepared to take on the PMP Exam? Does the thought of attempting the PMP Exam scare you? Roji Abraham, a successful project manager in a \$4 Billion firm, a certified PMP, an MBA graduate from one of Europe's best business schools, and an established author, writes in his unique style about his 30 day journey to PMP certification and gives step-by-step guidance on how you could effectively utilise your time while preparing for the PMP Exam. "Be a PMP ace in 30 days" isn't a full-fledged guide with a truckload of information on each section but rather, a companion book, that shows you, how in 30 days, you could use your resources effectively, and be ready for the PMP exam and succeed. That too, without having to take even a day off from work! Here's what you get from this value-for-money EBook that will oversee your personal journey to PMP certification: Guidance on the necessary tools and resources you need while preparing for the PMP exam and how to use them effectively. A downloadable weekly calendar with suggested daily and hourly schedules for covering each topic and reviewing them effectively over 30 days. A print-friendly downloadable process chart. Key notes for each day that highlights the most important topics for that day. Information on some great free/budget online resources. A brief outline of the changes incorporated in the PMP exam in January, 2016. Useful tips for the exam day. Five interviews with successful PMP candidates, from around the globe, with their suggestions on how to conquer the PMP exam. If you want to get PMP® certified, get this little value-for-money gem now!

Customer Reviews

Be A PMP Ace In 30 Days! I must say one should read your book before planning for PMP exam. The way you have narrated each minute element @ PMP is excellent & which will help PMP aspirants like me to gain confidence @ preparation/appearing PMP exam. If you can help us with day to day life case studies @ PMP in your next release will help a lot to understand 47 processes.

A great guide if you are seriously looking at cracking PMP! The detailed approach which takes into consideration a 5 day work week is extremely ideal. The time table prescribed also provides candidates with a disciplined approach where the progress can be tracked and learning reviewed. Definitely recommended!!

Great Book. Summed up everything in a crisp manner. Having said that this book I prefer to be used as Pocket PMP book. I am preparing for PMP certification and this book is helping me preparing for my exam.

Just what I was looking for.. Easy to follow, nicely organised and provides the much needed framework for putting important details together... Has given me confidence to attempt the PMP again and will use this at preparation time...

Simple, straightforward and structured - Very useful for somebody like me who messes with the entire planning process. The hour-wise timetable and end-of-Chapter tips are great for revisions. Not for lazy people though.

I had been preparing for PMP for the past couple of months. Been through quite a good number of

books and reference notes. This book provides the unique feature of preparing PMP completely in 30 days with the timetable. Very helpful. Thanks.

The flow of the book catches you and hoping that this would help in clearing the PMP in the first go! This is a personal experience which generally one gets from a friend or colleague which every seeks - Nicely narrated by Roji.

At first glance 'Be a PMP ace in 30 days' might come off as a tall claim but the discerning PMP aspirant who picks it up for a closer look is bound to be pleasantly surprised! The author's attempt at creating a guide for PMP is uniquely refreshing in that it's a personal journey on paper that is easily recreated. With umpteen guides in the market it's a cumbersome exercise to zero down on an effective process to approach the PMP exam. With the most helpful resources, weekly calendars, and process charts, this book seems to be a welcome change. Perhaps the most endearing quality of the guide must be the disarmingly candid manner in which the entire process for preparing and attempting the PMP is presented. The book seems to be primarily aimed at the PMP aspirants who do not have the luxury of time, but with its numerous study resources and links to free simulation exercises it is also invaluable to someone who wants to take it slow and steady. Definite must buy for any PMP aspirant!!
