Customer Reviews

As a college student for accounting, I was very surprised to see how fascinating this subject was. Until this book, I didn't realize how much this subject pertains to all parts of life and how essential it is to all careers. I thoroughly enjoyed the layout and content of this piece and strongly recommend it to all students and professors that are trying to get the most out of low cost.

Book was okay. It was required for a college class. What was good about this was that I was able to "rent" it as a text book, rather than purchase it.

Good quality rental.

The content is pretty dry but it makes sense most of the time. Not the best text book but I learned a thing or two

It's a very thorough book which covers a broad spectrum of communication related issues.

This was the first time I've ever rented a text book. It's the way to go!
