## Customer Reviews

It's a list, but nothing more than a good Google search can pull up. Some links listed didn't work at the time of trying.

You can scour the web looking for these sites yourself, or just save the time and purchase this e-book. And it is grouped, so you go to the part you need.

This short but goldmine of a book which includes bonuses and descriptions, is an awesome, no nonsense book. Many people pay a lot of money for books that hint to where you may find a

wholesaler or name just a couple of dropshipping companies. This is more of a map/pamphlet at a theme park. It tells you where to go, what they do, whom it is for, how to get there, and what you need, along with a few tips. It has fifty attractions, plus a few bonuses. Also, this is book One. Fifty is plenty to get started. I would like to see where I am when I will be asking for fifty more. Thank you.

This is a must read for those starting a drop ship business. I appreciated the resources provided. You will definitely get a bang for your buck when you purchase this book.

Disappointed, a lot of these links aren't wholesale sources at all. They are mostly retail. Good thing I didn't pay much for this book.

Does not list the best dropshipping companies, wish it was more extensive or split into categories. Still has 1 or 2 gems
