Study Guide For Lehne's Pharmacology For Nursing Care, 9e

Synopsis

Complex pharmacologic information is simple to learn with this complete study resource! Designed to accompany Lehne's[™] Pharmacology for Nursing Care, 9th Edition, this robust workbook features critical thinking study questions, case studies, and patient teaching scenarios that help you connect pharmacology concepts with their impact on patient care. Plus, an emphasis on priority nursing care with NCLEX examination-style review questions prepares you for success on the exam. NCLEX Examination-style questions are included in each chapter. NEW! NCLEX-style alternate format questions including prioritization questions, bolster your readiness for the NCLEX Exam while supporting review of core pharmacology content. NEW! Increased emphasis on patient safety features questions on safe patient care that challenge you to select appropriate actions to prevent or remediate medication errors. NEW! Detailed rationales for all prioritization questions are included in the answer key and encompass explanations for both correct and incorrect responses.

Customer Reviews

Helpful review of material in Lehne's excellent textbook and online materials. Pages tear out so you can carry just the material you're currently studying - a big advantage when you're already lugging 50 pounds of nursing texts around.

Best pharm book I've used. Very user friendly, easy to understand. Makes pharm much less painful.

Pretty helpful work book. I didn't always use and I know some of classmates never used it. If like workbooks then it's great to have. If you're not a workbook person then you should probably skip it.

I emailed the Elviser company about this book. I found a few errors in Chapter 7. Otherwise it is helpful, but I don't use it any more. Waste of 35\$...

This is a must have if you bought the book. I have used it for each exam and it has really helped. I highly recommend.

Has in depth questions to prepare for exams. I think it would be a good aid for many classes.

This book is in excellent condition and exactly what I was looking for.
