Synopsis

This is a "MUST READ" book for ALL Gold and Silver Investors who want to stay off the radar and remain TOTALLY PRIVATE. Readers are loving this book! There is so much confusing and contradictory information in the marketplace about this subject. As you know, PRIVACY has become a huge issue these days. We probably have less privacy now than at any other time in the past. Probably like you, I'm a hard working, tax-paying, God fearing American and I value my privacy. The great news is, precious metals can be one of the most private investments you can make, IF you do it correctly. This book will carefully walk you through it all and sort out the truth from the myths. It will clearly show you the smart way to invest in metals so your investments will be completely invisible to everyone... including the government. If you get this wrong, it can devastate your investment plans. If you get this right, you will sleep like a baby at night knowing much of your wealth is off the radar. It is truly a must-have book. I shouldn't have to say this but this book is completely above board and totally compliant with the laws of the United States. You will find nothing here that talks about circumventing the laws and/or taxes, or doing anything at all that is not completely 100% above board. If you do this correctly, there is no need to even think about bending any laws. The laws are already there. And they are very favorable to precious metals anyway, if you follow the rules. This book simply shows you how to take maximum advantage of the laws that are already there and still stay completely private. Here are just some of the things you will learn in this book:

- *Why All Of The Confusion and misinformation about this subject
- *Start With a Plan, This Is Critical
- *Buying Precious Metals Privately â “ Reporting Requirements â “ Limitations & Restrictions
- *Exact Types of Bullion Items That Can Be Bought Privately

- *Bullion Items That Cannot Be Sold Privately
- *Capital Gains Reporting Requirements

Want to do things right and be able to sleep like a baby at night? Invest a little time in reading this book and you will be amazed at how empowered you will feel when investing in precious metals. Customer Reviews

My headline says it all. If you want to accumulate, hold, sell, invest, profit, insure yourself via precious metals, invest a day online on reputable free gold/silver websites. As far as paying capital gains on silver eagles when sold:: they're legal tender. Silver IS Money . Does the author fail to understand this? What if the government said: ok mister/misses investor! You spent 10 on that ounce of silver, it's 20 now. Capital gains are now 95percent!! What was the point then of buying and holding? But again _____ silver/gold ARE "MONEY"! Paying a capital gain should be illegal!! That's like buying a dollar now and in 2018 using it and paying a tax on it to use it (we do ! It's called inflation/ devaluation of that dollar) The whole purpose of gold and silver are private honest MONEY: buy sell without government illegal Intrusion! That should be the crux of your book

If you want to safeguard your cash in all the confusion of the financial situation, gold and silver in your hand is the ticket. But how do you do it, how do you turn it back into cash when you need it? Will Uncle have his hand out to snipe his undeserved share???? This is the book for you. It will answer you questions that will help keep your metals investment from Uncles prying eyes and out of his clutches and keep it legal! Newbies will get the help they need to understand the ins and outs of buying/selling precious metals. Good little book.

A real time saver. I loved your lists of all of the various vault storage facilities. I sure did not have the time to try and search all of these out myself. Having all of these options in one place was wonderful. Only book like this that Iâ™ve seen.

You must have been reading my mind. I have been thinking about just about everything you talked about in this book. It's like you were one step ahead of me. We certainly think alike. It really is so easy to stay private if you just know the rules and abide by them. Mums the word.
