## Synopsis

John Stuart Mill's book *Utilitarianism* is a philosophical defense of utilitarianism in ethics. The essay first appeared as a series of three articles published in *Fraser's Magazine* in 1861; the articles were collected and reprinted as a single book in 1863. It went through four editions during Mill's lifetime with minor additions and revisions. Although Mill includes discussions of utilitarian ethical principles in other works such as *On Liberty* and *The Subjection of Women*, *Utilitarianism* contains Mill's only major discussion of the fundamental grounds for utilitarian ethical theory.
