Customer Reviews

I bought this for a friend who moved to a new house along with a lucky bamboo plant so she could

learn about how to use feng shui in her home. The title says the ultimate guide to mastering feng shui but it only gives you a basic idea about what feng shui is..and doesn't really tell you how to apply feng shui in your home in detail. I was disappointed to see a tiny booklet and the lousy content, not worth for the money you pay.

Always been very interested in Feng Shui and this is the ideal first book to get. It is clearly written Information that is in it I hadn't know! Such an informative book and easy to follow. Recommend this book.

I found this book very interesting I learned a lot about Feng Shui practical suggestions on how to fit the art of Feng Shui and its benefits into each room in your home. I always thought it was a Chinese thing, but I was so wrong it is for everyone. This is an awesome book I just loved it. There were so many great thingsâ in this book.

As an introductory guide to Feng Shui this book fits the bill! From start to finish this book is written in a way that is easy to understand and makes practical suggestions on how to fit the art of Feng Shui and its benefits into each room in your home. Don't miss out on this great guide as it will bring the type of mood you're trying to set in each of the rooms in your house.

This book is quick guide to plenty of good tips. It has a very good introduction to Feng Sui. It helps to organize my house depending on my aura and I felt that i feel more comfortable now. As beginner this book has given me an incise in Feng Sui.

This was a quick read that I really enjoyed. It can help provide a strong base knowledge that I honestly believe could bring many positive changes in any one's life. I've been trying to learn as much as possible about Feng shui. I've implemented changes where I could and I'm already seeing results in relationships and finances which inspires me to want to learn more. This book helped me make sense out of a lot things that just sounded like gibberish to me. Thank you! =)

I never new what Feng Shui really was but wanted to learn about it. This book was perfect for me and now I have a much better understanding. Great for beginners or anybody who is just really looking to learn more. Pick it up and read it you won't regret it. Great job!

I gained a lot of knowledge in Feng Shui which enlightened me on how the Chinese design houses and buildings. I've come into everything Asian and one of the things that really tickles my fancy is arranging my place for chi to flow better. Not only is feng shui beneficial, the design aspect is amazing as well. Reading this book gave a better understanding of the philosophy behind the art of balancing energy. It might be mysterious or superstitions to some but for me, it's really effective. My house looks lovely with a good balance of yin and yang for better luck and health.
