Customer Reviews

A well explained handy guide for enthusiasts and beginners. The psychology of colours, motifs ,themes and other aspects relating to painting and decorating your house with colours have been discussed. Every detail about painting has been well covered just to make you understand their importance and utility.

This was a great refresher course in painting with watercolors. Anyone can benefit from the information in this audiobook. A good knowledge of colors is always the best place to begin. Painting can be a relaxing hobby whether you're a beginner or have been painting for awhile. By using the tips in this book, you'll learn how to do watercolor painting fairly quickly. In this book, you'll learn about the brushes you'll need as well as the paper. This book also tells you a few things you need to know when buying the paints, whether you want pan or tube paint. Student paint is less expensive but contains less pigment. All in all, I enjoyed listening to this audiobook and feel inspired to paint. Another key point is to make the area where you paint desirable by choosing the right color or colors for the studio you paint in. Charles Orlik did a fine job narrating this audiobook. He has a positive, upbeat manner and it's as if he's talking to you like a friend. He's passing along the information you need to get busy painting. Great work!

I always wanted to start painting, you know the idea of sitting next to a river or in a meadow is very appealing but I never really knew where to start, this so why I jumped at the opportunity of downloading this book when it was on a free download. The book goes into the basics of starting to paint which is great for me, it goes into subjects like setting the mood, choosing the correct painting materials etc so great for anyone who is a beginner at painting.

Title is a farce. There's very little information that would be new to a third grader. Also, most painting mediums (oil, acrylic, etc) are barely mentioned. There's a short section on watercolor but doesn't even cover the basics.

This reads like the author looked up ideas online and shuffled them around into a book. You'll need brushes! You'll need paint! You'll need canvas!
