Doodle Artist - Fanciful Rats: A Colouring Book For Grown Ups

Synopsis

A colouring book designed just for those discerning folk who love rats as pets. This book contains thirty images of rats in various styles and differing levels of intricacy. The images are printed on a single side of the paper to help prevent bleed-through. We recommend putting a sheet of paper or card between pages if using strong inks. The back of each page is marked with a cutting line to aid removal of pictures. Other books by the same author/artist include: Doodle Artist Butterflies, Doodle Artist Simply Snowflakes, Doodle Artist Rabbits & Hares, Doodle Artist Peaceful Patterns, Doodle Artist Pets, Doodle Artist Dogs, The rattycorner.com Rat Care Guide, The Happy Rat Handbook, The Rat's Whiskers, I love rats, I do

Customer Reviews

This is my second coloring book by Annette Rand. I enjoyed the first book "Rabbits and Hares" so much, I came back to purchase this cute coloring book with pictures of rats. The book bills itself as "a colouring book for those who love pet rats". While I don't have rats in my house (my cats would probably have something to say about that), I do love the beauty of nature and animals and these pictures reflect that and will give me a fun time of coloring. There are so many cute designs. Some are based on actual rats while others are stylized or made into some adorable but imaginary designs. I think that the steampunk rat will be my first coloring project but I also really enjoy the mandalas. Many of the designs have "doodles" drawn into the images to make coloring these rats a fun and colorful experience. I love this style of drawing as it allows my

imagination to take over and create fun and colorful animals instead of simply realistic ones. All of the design stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper and work as expected for the type of lead (hard/soft) though I will note that the hard leads can leave a bit of an indent on the back of the page. I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink or by pressing too hard with my pencil tips.
