Customer Reviews

My daughter had great apprehension about taking the Geometry Regents as it is notorious for being very difficult. During the actual Regents several students cried, including her pal who has an above 92 average. This text helped my daughter prepare for the regents and she passed it. her pal with the 90's average only got a 75. My daughter got a 70 which I was glad of, done with this course!

This book is out of date. When my children brought it to school their Geometry teacher said it does not provide recent material and the test has changed significantly. It is wrong for to offer this for sale

It's perfect
