# Step By Step Investing Bundle (4-Book Set): Your Complete Investing Strategy For Stocks And Bonds In Four Investing Books

## Synopsis

The entire Step-by-Step Investing books series in one set - create an investing strategy that is right for YOUR goals at a 50% discount to the individual books!This set is a bundle of the books in the Step by Step Investing series: Step by Step Investing (ASIN: B0190OEJ1C), Step by Step Dividend Investing (ASIN: B0190O0RIG), Step by Step Bond Investing (ASIN: B01924JMO4), and Step by Step Emerging Markets Investing (ASIN: B0190TF9UW) Get all four books and everything you need to win the stock market game and reach your financial goals. You'll learn how to create an investment strategy in stocks, bonds and you will get it at the special 50% discount price.This investing book bundle will help you create a simple investing strategy that is right for YOUR goals.

As an investment analyst and investor myself, I have seen too many strategies that result in little more than excessive fees and returns that barely keep up with inflation. The problem is that the financial industry is designed to keep you buying and selling stocks to keep the cash machine ringing for brokers and advisors. The industry spits out one complicated trading strategy after another to keep you chasing returns in the hope of one day meeting your financial goals.The truth is that investing does not have to be complicated! These four books each start by showing you how to understand investments in four critical investments. Each book lays out a simple process to customize an investing strategy according to your financial goals and tolerance for risk.Rather than start with individual stock picks that might or might not work out, these books start with a look at YOUR needs and how to put together investments that get you there. In this investing book series, you'll learn:<sup>\*</sup> The only way to win the stock market game by playing it YOUR way<sup>\*</sup> The 10 investing basics that will keep you from making the bad investment decisions that cost people money<sup>\*</sup> How to maintain your portfolio without having to watch the markets every day, or even every month<sup>\*</sup> One group of dividend stocks that outperformed the stock market by 100% over the last decade.<sup>\*</sup> The reason most investors lose money and a simple four-step process for investing in dividend stocks.<sup>\*</sup> The five risks in bond investing, which can be reduced and how to avoid some altogether<sup>\*</sup> The four types of bonds that should be in everyone's portfolio<sup>\*</sup> The seven periods of boom and bust in emerging market investments and what to look for in the future.<sup>\*</sup> The three principal risks in emerging markets and warning signs of when to get out!And you'll get all of it for a 50% discount to the individual books!Skip all the Academic Theories and Complicated Trading Strategies in other Investing BooksThe Step-by-Step Investing Book bundle offers a simple process within each investment idea to put together your own portfolio without the excessive fees and false promises from Wall Street. If you're tired of worrying whether you will be able to meet your financial goals, you need this book set. Scroll up and click buy now.
