X-Men: Age Of Apocalypse Vol. 2: Reign

Synopsis

The world groans under the Darwinian conqueror Apocalypse's rule. Under his thumb, America has become a dark and dangerous dystopia where mutants rule, humankind suffers, and survival of the fittest is all! But in the shadows, the freedom fighters known as the X-Men - following a tenuously thin thread of hope - continue their dangerous and multi-pronged plan to restore the true Marvel Universe. In preparation for the upcoming movie, the event has been collected in trade and omnibus format. While I love the omnibus--check it out:Â X-Men: The Age of Apocalypse Omnibus (Marvel Omnibus)--the weighty book is so thick and so heavy that it makes it difficult to actually read. Enter the much more reader friendly trade edition.In order to complete the Age of Apocalypse event you'll also needÂ XMen: Age of

Apocalypse Volume 1: Alpha as well as X-Men: Age of Apocalypse Vol. 3: Omega. Readers will enjoy the gorgeous colors and maniacal action as the X-Men find themselves transformed by Apocalypses warped alternate reality. This trade paperback edition is perfect for backpacks and briefcases, and is perfect for fans who want to read the Age of Apocalypse event.

The saga of a world without Charles Xavier continues. Magneto has taken his place as head of the X-Men and is leading a desperate fight against Apocalypse, a mutant who has taken over most of the Western hemisphere. Apocalypse is either recruiting or destroying all the mutants in the Americas. What regular humans are left he uses as slaves or as genetic fodder for creating more mutants. Or he just "culls" them. One mutant, Bishop, is from the normal timeline where Xavier didn't die and he is helping Magneto craft a plan to restore history. So some X-Men are seeking out a special telepath while Nightcrawler is headed to the hidden refuge Avalon (which is apparently the Antarctic Savage Land from the normal timeline). Jean Grey and Wolverine work with the European humans to make a plan to contain or defeat Apocalypse. The Europeans' solution is to nuke Manhattan (Apocalypse's headquarters). Jean wants to warn whoever's left, but can she get there in time? Can the humans' plan come off? These questions and what happened with the rest of the non-X-Men heroes are looked at in this issue. Age of Apocalypse runs for another two books, so nothing is resolved yet, but the plot is still intriguing enough to keep me reading.

Classic X-men in a great compilation. Age of Apocalypse story arch rocked the Marvel Universe.

I collected all four volumes and a deadpool follow-up.....I lo lo love the story.....I hate doctor doom!

Great Product...Highly recommended...A+++

Excited to read! Only on the first book now. Unfortunately, the front cover of the comic is torn. It looks like a manufacturing defect. Not sure why anyone would send it out like that. This looks like it'd be in the discount bin.
