## **Customer Reviews**

It looks like you're getting 3 books, but it is the same book times 3. It really hurts your head, he just says the same thing over and over in all 3 books. After you read the first one, your looking for new information in the second or third one but all the information is just repetitive. These books are not really broken down into simplicity for someone just learning. I have found similar books that explain it in greater detail, and getting all the information needed in one book instead of having to reread the same stuff over and over is maddening.

Very good book, very instructive, full of "meat." While the author - who is a great speaker, too, by the way - says that 80% is good enough, I was pleased to find the book overall extremely well done, with very few errors. I'm a stickler (and a perfectionist), but the information and style far outweighed

the one tiny spelling error! Stefan is engaging, speaks from the heart, is quite knowledgeable and presents the information in a clear and concise manner. Bravo.

This book has all the info you need to get started making money on KDP, I have bought other books and even a \$100 course on KDP publishing business and it looks like that guy ripped this guy off. I got more out of these books than any other books I have read on Publishing and marketing your KDP books. Highly recommended and worth every penny.

Man I was blown away when I saw this 3 pack on sale for 99cents. Then I started reading it and got blown away all over again. I have taken KMM and wanted some additional training and insight, this bundle gave me just that. Lots of ideas in these books that were not in the course. Very glad that I picked this up. Would recommend to any one who is looking for more info on kindle marketing.

I bought this expecting it to be some get rich easy trick, but because I fancy myself fiction writer I gave it a try when it was on sale, risking one slice of pizza. While first two books did not impress me much, because they only contained basic and intuitive information that I could put together with my zero experience, third book however contained among its 33 strategies many clever and useful ones. Overall I am happy with purchase, but I would recommend buying third book alone.

OK, it's only 99 cents, but there was a video that said "instant access" that would not play after I had to enter my email and tried to reproduce several hard to read "captcha" words/numbers. Eventually I received a message that the application could not start and to try again... There seemed to be no way to cancel or refund the order.

Stefan really pours out his knowledge on marketing strategies to maximize your own business. He's provided a shortcut for anyone wanting to break into using Kindle Ebooks. I'm hooked, I'm going to launch my own business using his techniques. I can only hope to be as profitable. Now, I have to find my niche!

"How To Write A Book" isn't filled with fluff which suits my learning style and I was able to put a couple of Mr. Pylarinos' suggestions to immediate use for my next 5 books.
