# 10 Businesses That People Can Start Online In 1 Day Or Less!

## Synopsis

Online business is booming - but most people have no idea how to tap into the powerful profits available in this area. In spite of the dreams most people have of being able to make a living online, this is something these same people are never able to accomplish. In this short, powerful book, Internet marketing gurus Brian Koz and Shawn Casey - along with a select handful of other, successful online entrepreneurs - show you ten ways you can start a profitable online business. Better yet, each of these 10 online business ideas can be implemented in one day or less - making it possible for you to make easy money online, quickly!

## Book Information

Publication Date: February 11, 2015

Sold by:Â Digital Services LLC

Language: English

ASIN: B00TINBF90

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Enabled

Lending: Not Enabled

Enhanced Typesetting: Enabled

Best Sellers Rank: #37,349 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #18 inÂ Kindle Store > Kindle Short Reads > One hour (33-43 pages) > Business & Money #22 inÂ Kindle Store > Kindle eBooks > Business & Money > Marketing & Sales > Advertising #36 inÂ Kindle Store > Kindle eBooks > Business & Money > Accounting

## Customer Reviews

I would like to give this work 2.5 stars. This is a pamphlet, not a book. Interesting ideas but the chapter on Internet Research ended midsentence, midchapter - that was a ripoff that 2 seconds of proofreading would have prevented. The last chapter was more a series of shout outs than any help at all, a shameful bunch of fill in a microscopic ebook.

Way to Make Money Online #11: Write an e-book that's really short; completely half assed and

contains absolutely no useful technical/specific instructional information. Gave it 2 stars because #11 works even though I didn't buy it I got to read it for free. If I paid for it then I'd probably give it 5 stars just to make myself feel better for paying for it.

Ten overviews. Each of these 10 businesses could be an entire book itself. What you get with this book is 10 introductions to topics that are so complex, this book is basically useless. 3 stars.

I agree with "Bookie the Worm", on his/her review.....the book is "half-assed", to say the least. First of all, in its attempt to get more readers, (aka;suckers), the author/authors start pumping out the "FREE" bonuses.....which is nice, when they are in fact, free. BUT-the service is offered as a "GREAT DEAL, at \$199/month? Or \$997 per year? And this "FREEBIE" is offered at the BEGINNING of the book? That bit right there was enough to put me in a "I-AM-NOT-GONNA-BELIEVE-ANYTHING-YOU-SAY-AFTER-THIS" state of mind, and, I wasn't disappointed. The book was free, but not even worth THAT price. And as for "ONE DAY"? Sure, you can start ANYTHING in a day, but that doesn't mean the plan will work, or be "right" for each individual. Bottom line: the book is misleading, inaccurate, out of date, and over priced.

This was a good overview of some of the money making methods online. I was familiar with all of them, however I did get some valuable insights into what the expectations should be with each method. It explained why I may be failing in some of my methods and gave me direction to change some of the things I am currently doing. There was also some great information about providing social media and internet research services for businesses. I would be interested in taking some of the courses that these guys offer if they provide detailed training on how to accomplish some of these ideas.

Here you have the way to succeed in one or more of 10 businesses, written by 10 contributors who have done that. So it's not a copy-and-paste book but one of vast experience. I like that. You will get brief insights into such methods as E-Commerce Store, Blogging and Ads, Lead Generation, developing an Internet Research Firm, and more. You'll also have access to 2 free videos to get you started on the basics. For a good overview first, and then enough information to pin down what you'd like to start with, this is a good little guide. No "get rich quick" formulas, though. But you will plenty of links and other teaching material, some at a reasonable price. So I'd suggest consider this short overview of 10 businesses, and then narrow down to the one or two you'd like to start with. It could

be quite profitable.

Very simplistic outline of the basic businesses that most people who try to make money online do. Hate to say it, but this like so many other ebooks on the market now which follow the formula: Find a popular topic, compile info on that topic from other sources, publish.

I didn't know what to expect when I purchased this book since I didn't sample it. I found it to be an easy read with a host of information. For a novice who wants to use the internet as a means to produce an income, it's a must read. I obtained more information than expected. Did I say it's a must read for the novice looking to produce an income via the Internet?
