# Battle Hymn: Revelations Of The Sinister Plan For A New World Order

## **Synopsis**

This book presents frightening, but truthful, facts that will shake many of your deepest beliefs to the core. A dark plan, put into place centuries ago, has come to fruition. Consider Battle Hymn your wake-up call... Painstakingly researched through hundreds of sources and interviews, Battle Hymn rips the cover off the invisible government that controls our leaders and soon, our very lives. Composed of just a few hundred powerful but unelected people, this elite cadre seeks to create a one-world government to complete its already advanced globalist plans to end the sovereignty of all nations - including the United States. Its ultimate goal is complete control through a New-World Order where a socialist dictatorship ensures that every citizen is tagged, mollified and productive.

## **Book Information**

Audible Audio Edition

Listening Length: 15 hours and 44 minutes

Best Sellers Rank: #52 in Books > Education & Teaching > Schools & Teaching > Education Theory > History #66 in Books > Audible Audiobooks > Nonfiction > Education #156 in Books > Politics & Social Sciences > Philosophy > Political

## **Customer Reviews**

Four CHILLING Stars! This is the newest, tantalizing 'Mother Lode of conspiracy theories', written by authors Dane Phillips and John Scura, who were previously skeptical of "conspiracy theories": they even avoid using the term. And it is a grand work of investigation with built-in history lessons. This book represents the latest attempt to lay out and tie-up virtually all of the well-known international conspiracy theories, alleging centuries of worldwide control by secretive, powerful, very wealthy groups clandestinely manipulating and profiting from the world we live in: thru wartimes and peace-times; from good economic times thru depressions and recessions; covert international banking systems; political assassinations and manipulations; and propaganda, indoctrination, and physical control which go down to the very fabric of the lives of virtually everyone on earth. They

name and describe the relevant mysterious groups in clear unambiguous statements and give the most well-known of their current day memberships. And then the authors allege entirely new elements to old theories and some completely new theories that are simply chilling: such as a new element added to the JFK assassination, and now JFK Jr makes his first appearance, to my knowledge, into the conspiracy theory world. In the spirit of master authors/theorists like Jim Marrs, the broad timelines, historical convergences, and alleged activities are immense accusations. This uniquely structured book is like a 'concerto', written in 7 'movements' with pre-and post chapters, and is destined to have an honored place on any serious conspiracy theorists' book collection. There are a few unnecessary political stances by the authors and the patient chip implant information relative to Obamacare is not accurate. How much of this book is true?
