Chickens

Synopsis

Flaunting their high-fashion plumage, chickens strut and pose like runway models for photographer Ernest Goh. These birds, with their all-too-human expressions, are both funny and poignant, as if they are commenting on our own foibles. From the proud Serama of Malaysia to the delightfully humorous Silkie, Goh's portraits, shot on location throughout the world, convey not only the beauty and diversity of various breeds, but also capture the personality of each fowl. For sheer variety in size, color, feathering, and behavior, nothing beats the humble chicken, and no other book captures this surprising phenomenon as well as the hilarious Chickens.

Good photography. Limited entertainment value. I bought it for my wife (we are both artists and she loves chickens) and she appreciated the sentiment. But - 10 minutes after opening it, it went on the shelf and I imagine will never be opened again.

This is the strangest and perhaps the most beautiful picture book i have ever purchased.

Glorious pictures, fun comments and more breeds of chickens that I knew existed. I am giving this perfect gift of Chicken book to a friend who has chickens, it will be her Christmas gift from me.

This was a gift for a chicken-raising friend. Stunning photos and the perfect gift for someone who

raises chickens.

I loved the photos, but I wish the book was larger, actually. The small size, and the fact that some of the pictures are obscured by the binding/middle of the book really takes some of the enjoyment away. I think this photographer and the pictures deserved much better - just something a tad larger -like "coffee table book' sized (if that makes sense)

Inspirational photographer + love for chickens = great book!

Great personality birds
