## Customer Reviews

I have read many books on felting and done some really good online tutorials on felting dolls. This book is loaded with very helpful information and detailed pictures. It is a great reference for refreshing knowledge on what you are working on at the moment. It seems to include ALL the information I have gathered from other sources into one easily referenced book. Thank you Terese Cato!

I wish I could give this book 10 Stars!. This book guides your hand each step of the wayÃ¢ÂÂ. Wow. From head to toe, clothes, hairstyles, accessories, shoes and even how to display your work. If you are a beginner or even an experienced needle felter, you will love what Terese shares in her book. IÃ¢ÂÂve learned some great tricks! This book is filled with so many close-up photos, never once will you questions whatÃ¢ÂÂs next. I have been needle felting for several years and also own a needle felting supply company, Dream Felt, and my customers are always asking me where I

can learn how to make people. Well, now I have a great source in "Needle Felting Sculpting People with Wool" by Terese Cato. Highly, highly recommended. \*\*\*\*\*

What a great book. Not only does it include instructions for learning how to needle-felt, a list of items needed, but tips for all levels of expertise. I have been fascinated by needle felting for several years. I think that now, with the Cato book, I will be brave enough to give it a try! The background information is also well written.

This is without a doubt the best instructional book I've ever read. The detailed directions and photo illustrations are superb. And on top of that, she does a wonderful job of showing you how to creatively develop your own style. I'd like to give 10 stars!

Absolutely the best needle felting book I have purchased thus far. It has step by step pictorials and written instructions for every aspect of making a person's face and body. It's the first time that I have attempted to do this and my piece is coming out wonderful. The book also starts out with the basics of needle felting (again with a lot of pictures) explaining the different types of wool, needles sizes and what they are used for etc... The book also goes into extensive descriptions with pictures of building an armature for a person/doll sculpture. I highly recommend this book for anyone interested in making a person sculpture!!

I loved this book! This was my first time working with needle felting and the photos and explanations in this book made the project easy and fun. Highly recommend this book to seasoned crafters and newbies.

Very disappointed. The faces shown in the instructional section were well below my expectation. If those had been the first samples I had seen I probably would not have ventured into needle felting. Paying the hefty price, I was hoping for more.

This book gives a lot of good ideas and techniques. Enjoyed the book as I do all of the books by Terese Cato. You will not be disappointed.
