I got one signed by the author, and it is a great resource. The author gives you a lot of information about the whole process that doctors, hospitals, and insurance companies won't tell you. She also gives a lot of useful information for those who are caregivers and friends of someone suffering from cancer that people might not realize. I highly recommend it!

LOVE this book! I only wish it were around when my wife was diagnosed with AML leukemia TWICE and had to get TWO bone marrow transplants to stay alive. I really could have used all of the excellent information. It's a really good book none the less. It really makes you appreciate being alive and living each day healthy. I'd give it 6 starts if I could.

God Bless! Such good people! Continued prayers!
