Customer Reviews

Love optum products.I would say better than AMA manuals. May not have tabs like AMA manuals but papers are much better quality. In this particular manual I don't like HCPCS codes dark highlighted. It is very hard to read some codes which are highlighted with dark color. Please don't come with any bright ideas. Keep it simple and you will be appreciated . I still like the optum's ICD manuals, well designed and colored.

Awful packaging. I paid for a brand new book and I received one which looks used. The book has a with a very deep crease on the front cover as well as several of the first few pages. I wish I could just have bought one that is used and saved some bucks.

I was very happy about how quickly my product arrived and the quality is nearly perfect.

very helpful perfect condition fast delivery couldn't do coding with out this

Great just what I wanted! Fast shipping!

Great Buy
