Customer Reviews

A total disappointment of the author Klm Heldman. She has a web site where she claims project management but the general opinion is very very negative. People like me try to get better with education but the author found a niche in the market and is not helping so I just spend my last few dollars on an empty and poorly edited book. Also, they make sure to give the best rating, Four reviews at five stars? Come on!

Great book. Info easy to digest. Great review to take the exam. Like the format and sections of the book

Using this for my PMP prep and it's very good. Covers the new test content!
