## Customer Reviews

Wiley needs to get with the times. Found other CPA review course text easier to understand. This book is great as a reference book but not easy to follow. The way the online book reads is very hard to follow.

It was really helpful to review the CPA exam with the Financial Statements. the answer is so details,

we can understand very well.

Really good overview of exam content. Lot's of great questions.

I really like the way they design the exercises.

Very detailed book as compared to Becker. It's much more reading which may be a bad thing? But overall for the price of the book you definitely get your money's worth.

I found a lot of errors in this book. It became such a common occurrence that I lost faith in some of the subject matter I was studying.

Really helpful for areas of the textbook where I couldn't get better exercises to practice.

same as described
