## **Customer Reviews**

I like the thoughts on making sure the home works for you before you buy, choosing location and views. The part on decorating was somewhat vague; again, with good points but too brief to really be of much value. I think this author knows what she is doing, and if she got more specific and more detailed, perhaps with a few more real-world examples, in a longer book, it would be well worth reading

was a good book

have only had time to glance at it

Lots of ideas for designing and decorating. Good book.

It was good but I'm not thinking about building one but fixing my up not building a new one so it was not what I thought it was
